

Councillor X

26 January 2007

Dear Councillor X

**Maerdy Windfarm – Public Engagement Work**

I wrote to you at the beginning of November to advise of the public exhibitions and other work planned to provide information to the public on the Maerdy Windfarm proposals. A report to the Council on all the public engagement work undertaken post the planning application has now been submitted and a copy is enclosed.

**Community Benefit Programme**

Consultation on the Community Benefit Programme has also been ongoing throughout the Autumn with the objective of gathering direction to the development of community benefit schemes. A report on the Consultation, submitted to the Council, is enclosed.

**Public Attitudes**

Please also find enclosed a letter to the Council that summarises the various quantitative data available regarding public attitudes toward the Maerdy Windfarm proposals.

These papers are also available from the project website: [www.maerdywindfarm.co.uk](http://www.maerdywindfarm.co.uk), under planning documents / supplementary reports.

With kind regards

Yours sincerely

Richard Hadwin
